

# The castle of Flossenbürg

On the tracks of the knights!

Seven crosses were carved in the walls of the castle, distributed all over its grounds. Due to the legend there is a treasure behind the seventh cross, hidden by robber knights. But this cross has never been found. Maybe you will find it? It's worth a try.

### Our tip!

Visit the nearby "granite path" and the "stonemason museum".

# The leisure centre Gaisweiher

An excursion for young and old!

Free access to the lake, parking spaces for tents and caravans, a wide meadow with an extraordinary water playground for your children as well as restaurant with home-style cooking and panorama terrace. Nature and pure relaxation.

### Our tip!

The "path in the shadow" invites you to walk comfortably round the lake.

# The concentration camp memorial

Remember and meet!

During the time of national socialism a concentration camp was built in Flossenbürg. Prisoners had to do hard work under pressure there. Today there is a memorial site on the territory of the former concentration camp. It is one of the most modern reminders in Europe.

## Our tip!

Visit the daily opened exhibition and the grounds of the memorial site.

# What else is there?

Experience even more!

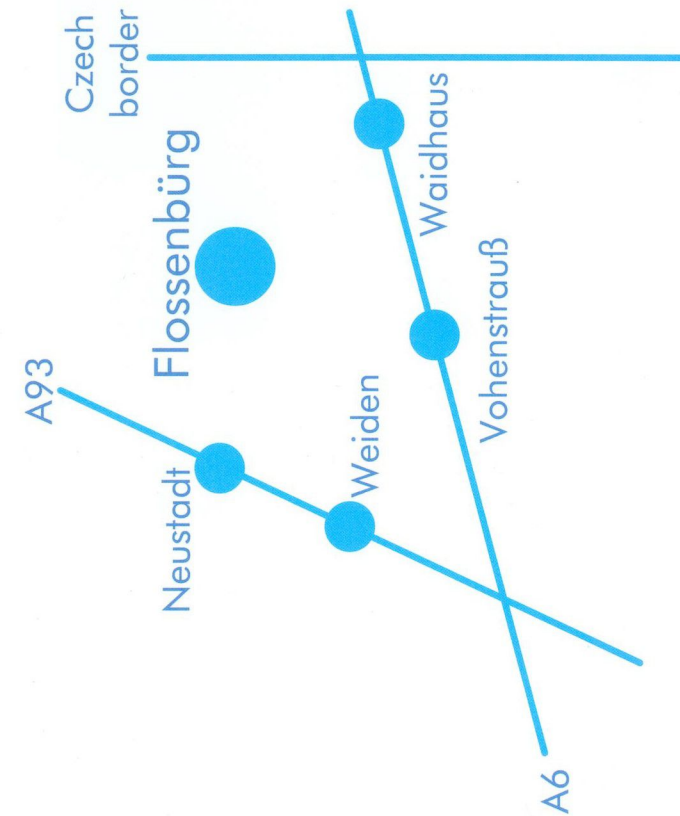

Not far from Flossenbürg ist the village Hildweinsreuth, were you can find the centre of Central Europe. Besides: In Flossenbürg is the skilift "Wurmstein". And in addition to that it takes you only 10 minutes by car to reach the cross-country skiing centre "Silberhütte".

## Our tip!

The "panorama path" between St. Ötzen and Hildweinsreuth is a paradise for walkers.
